

Date: 09/18/2017

Opening available at Universal E-Business Solutions, LLC for the following position in New York, NY.

**Senior Network Architect** - Develop and implement solutions for network problems. Develop conceptual, logical, or physical network designs. Communicate with system users to ensure accounts are set up properly or to diagnose and solve operational problems. Coordinate network operations, maintenance, repairs, and upgrades and network or design activities with designers of associated networks. Develop procedures to track, project, or report network availability, reliability, capacity, or utilization. Mentor team members and provide guidance as needed.

Position requires Master's degree or foreign equivalent in Information Science, Computer Science or any related field and 1 year experience in the job offered or as Network Engineer, Systems Engineer, Systems Analyst or equivalent. In lieu of Master's degree and 1 year experience, the employer will accept Bachelor's degree or foreign equivalent in Information Science, Computer Science or any related field and 5 years of progressive work experience. Qualifying experience must include 1 year of using Cisco Nexus switches, AppSpace Software, Cisco FirePower Security, VMware vSphere/ESX Server, Solarwinds Orion Network Management System (NMS).

Please mail resume and cover letter to Universal E-Business Solutions, HR department, 244 5<sup>th</sup> Avenue, 4<sup>th</sup> Floor, New York, NY 10001.
